WAGES AND MANUFACTURES.

Mr. George Johnson, Census Commissioner, has issued the return on the subject of wages and manufactures, which contains the following interesting information:

According to the return of the census of 1891, of a total of 75,708 industrial establishments, 45,770 were running full time during the year ended April, 1891, 19,981 half time and 14,000 quarter time. Thus 64.7 per cent of the industrial establishments of the country were reported as working full time, and 18.9 per cent quarter time.

We have no similar statistics for 1891, the census regarding them having been provided in the census of 1891, for the first time.

According to the census return of 1891, there were 254,305 employees receiving \$60,429,000, or an average of \$235 per annum for each employee.

In 1891, the per head wage received amounted to \$272, the employees numbered 257,498, and the aggregate wages paid amounted to \$70,176,441.

This average wage of \$235 in 1891, and of \$272 in 1891, compares with the wages of men, women, girls and boys lumped together.

As men represented 67.07 per cent of the whole number in 1891 and 75.07 in 1891, it is evident that the greater number of the wage paid employees were men.

Notwithstanding this reduction the average wages paid in 1891 were 16 per cent of an advance on the average wages in 1881.

This fact points to a very considerable increase in the rate of wages as the result of the 10 years' development of our manufacturing interests.

In the full time establishments there was 3,292 men, receiving \$1,654,269, or an average of \$504 per employee. The wages of this class of employees range from \$450 to \$405.

Supposing that in 1881 a similar condition of activity ruled in connection with agricultural implements making, then the rate of wages in 1881, which was \$333, may fairly be compared with the \$459 of 1891.

Bakeries and confectioneries were lumped together in the census of 1891. In 1891 they were compiled separately. And in 1891 there were 2,463 employees in bakeries, receiving \$770,190, or an average of \$313 per employee. Taking the full-time establishments there were 2,385 employees, receiving \$770,190, or an average of \$327 per employee.

Confectioners employed 177 bakers, receiving a wage of \$263, according to the compiled list. Pastry bakers and confectioners together have the full wages averaging \$297 per employee, and the wages of the year for employees in all establishments averaging \$294 in 1891, to compare with the average wage of \$294 in 1881.

In the case of cotton mills by the census of 1891 there were 240,000 employees, receiving an average wage of \$280. Of these 240,000 there were 140,000 men and 100,000 women and children. Thus the average wage of the employees were persons other than men.

In 1881 80 per cent were persons other than men. The average wage paid in 1881 was \$227.

In the case of the great mills of Ontario 244,000 employees received in 1891 an average of \$300 each per annum. In 1881 the average wage was \$250. In 1891 the average wage was \$250. In 1881 the average wage was \$250.

Block and the making in Ontario employed 3236 men, and 513 boys. The average wages there received amounted to \$210; the average wage in 1881 was \$181. In 1891 the average was \$210. It is apparent that there was something wrong with this industry in 1891. Only 70 per cent of the total number of employees was in full employment. The result is that the wages appear to have dropped 4 per cent below the average of 1881.

This illustration will serve to show the limitations that should be observed in any attempt to deduce a general conclusion as to the rate of increase in the average wage during the 10 years.

In the manufacture of boots and shoes, the number of employees according to the census of 1891 was 4400, of whom 3750 were employed full time. The average wage of the full time was \$333 per annum and of all employees \$304. In 1881 the average wage was \$280.

In the ironworks of Ontario, there were 10,000 employees in 1891, receiving an average wage of \$266, compared with \$263 average in 1881, receiving \$266 average.

Taking the 10 industries first listed the percentage of those employed full time during the year 1891-92, was as follows:

Brewing, 100 per cent.
Cotton manufacturing, 100
Agriculture, 100
Agriculture in product making, 100
Baking and confectionery, 100
Clothing and furniture making, 94
Food and kindred manufactures, 88
Paper and allied industries, 88
Blacksmithing, 71
In the following wages were stationary:

Bakers and confectioners
Brick and the making, 4 per cent.
This means an increase of over 17 per cent in the 10 industries examined.

The total wages paid, divided by the total number of employees, without respect to full-time, half-time and quarter time, as the average of over 16 per cent, as the increase in the yearly wages of 1891, as compared with 1881.

It is evident from these two separate indications that the wages have increased from 16 to 17 per cent. The proportion of those employed full time and half time would vary greatly from the proportion given in the list, since the wages paid, as ascertained by the total average and by the average of ten representative industries, approximate so nearly.

The returns show considerable difference in the wages paid in the different provinces. In the case of the census of 1891, the average wage paid to men, women, girls and boys was \$235. In 1891, Ontario being 100, Quebec would be 90. In 1871, Ontario being 100, Quebec would be 73.

According to the census of 1891, there were 213 in the Province of Ontario in 1891, there were 139 in 1881. In 1891, Ontario being 100, Quebec would be 90. In 1871, Ontario being 100, Quebec would be 73.

That in the Province of Quebec there were 213 in 1891, there were 139 in 1881. In 1891, Ontario being 100, Quebec would be 90. In 1871, Ontario being 100, Quebec would be 73.

That in the Province of Quebec there were 213 in 1891, there were 139 in 1881. In 1891, Ontario being 100, Quebec would be 90. In 1871, Ontario being 100, Quebec would be 73.

That in the Province of Quebec there were 213 in 1891, there were 139 in 1881. In 1891, Ontario being 100, Quebec would be 90. In 1871, Ontario being 100, Quebec would be 73.

BEHAVIOR, SATURDAY SEPT. 3

A RIGHTeous JUDGMENT.

In yesterday's "Coffin" McDonald had ten years in the penitentiary, Judge Lester deserves the thanks of law-abiding citizens. Having just completed a sentence in the penitentiary, McDonald was found guilty of a second offense and properly received the full penalty. Such characters are a public nuisance, but are dangerous to society, which is only safe when they are under lock and key.

THE CHOLERA SCARE.

Our telegram to day notes the arrival at New York of the steamer Rago and reports made each of 9 deaths from cholera on board. To show how news is manufactured, the telegraph operator who sent the news added that the cholera could be kept out of this country—no item which will be published throughout the country, and add to the needless scare.

Capt. H. Spilke, of the S.S. Pickhoben, of the Hamburg American Line, reports a twin steamer of the Rago, in the city to-day, and says that he has traded with countries infected with the cholera and that no trouble resulted, as the ships were quarantined for 30 days—which will be the case with the Rago, and Normal, and no epidemic can result. Capt. Spilke left Hamburg on the 5th Aug., and says that there was no word of cholera when he left with 276 passengers, whom he landed at New York.

HYPOCRITICAL, AS USUAL.

A contemporary learns that during the recent session the Conservative side of the House was about unanimous for a tip of the sectional allowance from \$1,000 to \$1,500, in the move. The latter held a caucus and came to the conclusion that the motion would be carried without their consent—they would pocket the bottle and go out screaming. "Try extra," they said, and they were duly disappointed, however, lost the \$500 each by their duplicity; but they will likely make a virtue of necessity and do some boasting about their self-denial. They must not be allowed to know the fact, though, that they have an unenviable record for tips. Just as soon as they get possession of the local money bag the first thing they gave their undivided attention to was a tip of the sectional allowance from \$400 to \$500, and now they tipped it up to \$800 and pocketed the swag: the press and the people raising a howl of indignation against the wholly unscrupulous graft, they next session dropped back to the \$500, the amount remaining at that until this time. Then in '74 when they were in possession of the big chest at Ottawa, and before Mr. Macdonald had time to purchase a mountain of steel rails in a falling market and for which he had no immediate use, they tipped the Tory Insanity from \$500, which in all conscience was enough, to \$1,000, and now they remain. And yet they pretend to be honest and economy—the unblinking hypocrites!

Many people, not aware of the danger of constipation, neglect the proper remedy. All the health troubles, chronic, or inflammation of the bowels, a dose or two of Ayer's Pills at the beginning would have prevented all this.

EVANGELIST J. J. Sims, of Toronto, will give his closing address to-morrow (Sunday) at 4 o'clock in the Bath Hall. "The last days," as shown in the Lord's address to Laodiceans, showing we are near the end of this age." Mr. Sims will for England next week to take up evangelistic work there. All welcome.

Ladies appreciate Andrus from the fact that it is not a mere cosmetic, but with three applications, not only improves the face, but restores fading hair to its original color, and makes it soft and pliable without leaving any indications of a dressing being used. Clear as crystal, clean to use, it is a valuable toilet preparation.

The best burner stove, the telephone and other improvements of a like kind have been introduced in a domestic range, which is now on hand within the last few years. We Hit the Nail on the Head!

If you were as rich as Rothschild you couldn't afford to waste your money, and you hit the nail squarely on the head every time.

You save it. We make no false pretences, for the very good reason that false pretences don't pay. We quote the smallest possible margin of profit, and occasionally we make sacrifices. Here for instance, are some sacrifice prices:—

Boys' Suits worth \$2.50 we sell for \$1.50
Boys' Suits worth \$4.50 we sell for \$2.50.
Youths' Suits worth \$8.00 we sell for \$3.75.
Youths' Suits worth \$8.00 we sell for \$5.00.
Men's Suits worth \$6.00 we sell for \$3.50 \$3.
Men's Suits worth \$8.00 we sell for \$5.00.
Men's Suits worth \$10.00 we sell for \$6.00.
Men's Suits worth \$12.00 we sell for \$8.00.
Men's Pants worth \$1.75 we sell for \$1.00.
Men's Overalls worth 50c we sell for 19c.

There is no flight of artistic imagination. Not only have we all styles on hand, but they are not on hand to stay; they must be disposed of within a given period, and no trifling obstacles will be allowed to stand in the way. We are now in a position to make peculiarly favorable terms with buyers. It can make no possible difference to us what you may happen to want in our lines, it is a matter of personal pride with us to be always ready to place it at your disposal. Consult your personal inclinations and we will see to it that it is every purchase you make your interests are consulted.

ALL STYLES ON HAND.

Discharge of W. M. Vint.
GENTLEMEN:—About five weeks ago I was
taken with a severe attack of diarrhoea
and vomiting. The pain was almost
unbearable and I thought I could not live
the morning, but after I had taken the third
dose of Fowler's Wild Strawberry the
vomiting ceased, and after the diarrhoea
and I have not had the least symptom of it
since.

DEAR SIR:—My baby was very sick
with diarrhoea, and everything we tried failed.
But on trying Dr. Fowler's Extract of
Wild Strawberry we found it gave prompt
relief and very soon cured him completely.

DEAR SIR:—I am writing to you to
thank you for the bottle of Fowler's
Wild Strawberry which you sent me. I have
used it for a long time and it has cured
me of my diarrhoea. I am now well and
strong. I am sure it will cure many

BELLEVILLE, MONDAY, SEPT. 5.

THE ASIATIC CHOLERA.

This mysterious and universally dreaded malady, which at irregular intervals has its stronghold amongst the filthy hordes who inhabit eastern Asia to scourge the western nations, is once more on the march. With a rapidity undreamed of in former years, it is now doing its deadly work in the rapidity of travel in these days—spread over Russia and portions of France and Germany, and has even reached England in ships from infected ports. Happily, however, the disease has not spread in the mother land up to the date of writing, no cases other than those imported by the post-ships having occurred there, and there is reason to hope that the plague may be stayed by the strict enforcement of quarantine against vessels from infected ports, and proper attention to sanitary regulations.

In the same way the ship has reached the shores of the United States, and the steamships from Hamburg being now in quarantine at New York with the disease on board.

This fact is no doubt alarming to a certain extent, but it is not an alarm for panic, or even for fear that there will be a spread of the infection on this continent. No longer ago than 1887 the steamship "Albatross," from an Italian port, arrived at New York with cholera on board. The vessel was taken to the lower bay, the passengers being landed on Hoffman Island and there carefully isolated and cared for, and although several deaths occurred amongst them—the disease being of the most malignant type—it never spread beyond the limits of the island. True, the plague was not then so well established in Europe as it now is, but the same measures that were then so effectual are not likely to fail now. What has happened here can be done again. Moreover President Harrison has, by issuing an order for twenty days' quarantine, if necessary, on all vessels from Europe, virtually put a stop to the immigration of persons suffering from cholera.

The danger of the disease is now so great, however, as to be the subject of serious consideration, with people amongst whom are many of the uncleanly and intemperate habits, that the germs of the disease find the most congenial soil in which to grow.

New York being the great funnel through which European immigration to this continent passes, it is, of course, the chief seat of danger; but at Boston, Philadelphia, Baltimore and New Orleans large numbers of immigrants are annually landed. The same quarantine regulations, which are enforced here, are also enforced at the other ports; therefore, the United States may be said to be well guarded against infection.

It is also satisfactory to learn that our own Government have been fully alive to their duty in the matter and have been taking every step to prevent the disease from becoming a new pestilence.

As we have said, there is no present occasion for disturbance in the public mind as to a visitation of cholera; but it is not out of place to disseminate information as to the nature of the disease and the best methods of preventing its spread in the event of an attack. The following from the *American Druggist*, is particularly worthy of consideration:

"A great many persons are giving themselves unnecessary trouble about cholera. The disease is only formidable where inadequate means exist for grappling with it, and in this country we are fully prepared to deal with it. Cholera and typhoid fever are the primary cause of its origin in Asia. Dirty, ignorant, and warm climates are the principal transmitters of the disease. In India and China, India, the writer has seen a large mortality from cholera among the poor classes, where unsanitary conditions prevail, while immediately among the Europeans and natives who observed ordinary precautions in food and drink, were wholly free from the disease. In Belgium kills all cholera germs, and hence it is well during the cholera epidemic to use boiled water and keep food in a cool place. Food is also a safe diet at such times, if used at once on opening, owing to the boiling they receive in the steam being packed. While it may be well enough to quarantine the low class of immigrants that have been reaching from the infected districts of Russia and Germany, or shut them out altogether for a time, there is no reason to suppose that they are any more dangerous than the natives of France and Spain, where the cholera has prevailed more or less for several years. The relation is likely to be less serious here, than in those countries, where the cholera germs are more numerous, and where the climate is more favorable to their propagation. Cholera is a contagious disease, and is very likely to kill thousands, while cholera is a deadly disease, but because we are familiar with the disease, we are not afraid of them. Hundreds of children die in this city every year from cholera infantum, and the disease is not more dangerous than the disease of the adult. No person need fear the cholera if he exercises ordinary care in diet, cleanliness and sanitary surroundings."

Has Mercury Satellites?

To the Editor of the Intelligencer.

Sir,—At present, activities in this

planet, it has been said by astronomers

that it possesses none. It is also

stated that, until Prof. Hall in

August, 1879, by aid of a more powerful

telescope than his own, he was

enabled to detect the existence of the

satellites of Mercury. The planet is

said to have two satellites, one of which

is named Zerkow (Zerkow) and the other

(Lerner). The giving of such names to

satellites is a very common practice

and is not at all unusual. Since such

has been the case, it is not surprising

that the names of these satellites should

be given to the planet itself. The

planet of Mercury (Mercury) is

the second planet from the sun. It is

the smallest planet in the solar system

and is the only planet which is

closer to the sun than the earth. It is

the only planet which is visible in the

evening, when its elongation is east

of the sun. It is the only planet

which is visible in the morning, when

its elongation is west of the sun. It is

the only planet which is visible in the

middle of the day, when its elongation

is north or south of the sun. It is the

SOMETHING NEW FOR BELLEVILLE. Read E. Harrison's space in Friday's Intelligencer of the 16th inst. 1892.

FRIDAY'S INTELLIGENCER, Sept. 10th, will contain some interesting matter, particularly E. Harrison's space. See it! 1892.

To rise in the morning with a bad taste in the mouth and no appetite, indicate that the stomach needs strengthening. For this purpose there is nothing better than a occasional dose of Ayer's Pills taken at bed time.

The aim in the manufacture of Messrs. Tuck's and Son's "Myrtle Nerve" is to develop and retain the natural action of the stomach. This requires great skill and a knowledge of very interesting chemical laws, but the result achieved is really superior to all forms of stomachic.

When the kidneys are clogged, good health is an impossibility; but when working properly the reverse is the case. That dull back ache is the kidney's cry for relief. If Dodd's Kidney Pills are used the result will be marvellous. We have never known a case of kidney disease that a persistent use of Dodd's Kidney Pills will not cure.

WHY MISREPRESENT?

Yet it must be expected that no time could be more important than the present for a return to the old protectionist action that Canada must live within herself, manufacture for herself, provide her own necessities, and become practically independent of foreign trade.

That the foregoing is a deliberate misrepresentation of the National Policy, the Globe knows perfectly well.

Such misrepresentation is the strongest possible testimony in favor of the Conservative policy. It shows that the organs have abandoned all hope of successfully opposing that policy; that they have been driven to set up an invention of their own, in order to provide an object for their attacks.

Truly their plight is a pitiable one. The policy of the Government has been without change during the past fourteen years; but what have the Opposition had to offer to the people during that time? Here is the picture which Sir John Thompson has drawn in his speech at Belleville:

Let us for a moment place at the position which our opponents occupy to-day. Let us ask you what policy they have prosecuted in contrast to that which we have been upholding. We know that four years ago they started out with the policy of free trade.

Finding that impossible they went on to commercial union. They abandoned that for a more radical policy. They went from that for a free trade and direct taxation, and now they are about to hold a convention to see whether they can discover a new policy for the future. (Laughter.)

A voice—What about annexation?

Sir John Thompson—Well, there is little of that, but the more bonanza of their leaders came out and denied it, and struck down a great many columns of the newspaper to do it. It took eight columns to prove they were loyal then. That (ironic) is the case with the Conservative party to take anything like loyal (Applause). We have a constant flow in our face that when our Prime Minister, Sir John Abbott (whose health, may I say, is improving—applause) that he has not signed an annexation agreement. It was one of the errors and faults of youth, and all I can say to our opponents is that it will be a bright day for them and for their party when they have their annexation principles fully behind them. (Applause.)

A CONTRAST

The Canadian farmer has been the subject of much commiseration on the part of sympathy politicians for many years past, remarks the Ottawa Citizen in a recent issue. Affecting pictures of his impoverished condition and steadily accelerating misery have been drawn for the edification of the readers of Reform journals, until the wonder has grown that a class of men so unfortunate, the victims of legislation so bad, should remain in the country at all. The annual statements of the President of the United States have called attention to the fact that Canadian farmers had paid in the greater part of the eighteen million dollars which had been added to the debt in those territories during the previous twelve months—a remarkable testimony to the prosperity of agriculture during that time.

Let us turn now to the other side of the picture. There is no hope for our population, they are sapped, and they show in their lot with the United States commercial life. If we merged ourselves in the continent to which we belong, by adopting a uniform tariff, the result would be that our farmers and the American farmers would be placed under similar conditions and would be expected to be equally successful. But what of the American farmer?

In a recent issue of the Ottawa Citizen at Washington, the mortgage indebtedness of Missouri, incurred in ten years, is set down at \$5,727,774—nearly double the public debt of the entire State of Canada. Between 1880 and 1890 no less than 448,086 real estate mortgages were made in that State. The debt remaining in force last year was \$214,029,772. It will be seen from these figures that the American farmer is extending beyond the line of welfare and joy in a measure of prosperity, to say the least, as our brethren elsewhere.

Annual Meeting and Election of Officers.

The annual meeting of the Woman's
Christian Temperance Union was held on
Friday afternoon, in the Temperance Hall.There was a good attendance, and much
business was transacted. Reported different
departments were presented, of good work
and during the year. The Treasurer's
report was most satisfactory, showing a bal-
ance on hand.After the usual business, the following
were elected officers for the coming year:
President, Mrs. J. A. Smith; Vice-President,
Mrs. J. A. Smith; Secretary, Mrs. J. A. Smith;
Treasurer, Mrs. J. A. Smith; and the
annual report of the Secretary.The work of the Woman's Christian Tem-
perance Union of Belleville during the past
year, has been, in accordance with their
constitution, "For the rescue of the
Land."The interests of the young were
looked after, by having a Band of Hope
under our own auspices, as well as by seek-
ing to get the pledge introduced into all the
Sabbath Schools of our city. In addition
to these means, and to stimulate the study
of scientific Temperance in Public Schools,
prize were offered, and with the valued
aid of the Inspector and teachers, we suc-
ceeded in getting a competitive examina-
tion, the result of which seven pupils
were awarded the successful prize.In connection with other efforts, we
made another effort to reduce the number
of liquor houses. At the time of the mu-
nicipal election, the respondents had an
opportunity of expressing their views on
this subject, with the gratifying result of a
majority of votes being cast in favor of a
reduction. The City Council, however,
who had provided the By-law to be voted
on, refused to carry out the wishes of the
majority; so that the usual number of
twenty-five were once more authorized to
continue their saluting and destroying work.In December the students of our college
and High School were again entertained by
our Union as an "At Home," which was
much enjoyed by all present.The Female Mission Committee have
faithfully discharged their weekly duties of
visiting the Hospital and Home, and carry-
ing to the afflicted inmates flowers and fruit,
accompanied with cards or letters bearing
suitable messages from God's word.The jail has been visited regularly, and, in
some cases, material as well as spiritual aid
given to the female prisoners.We assisted in circulating petitions for-
warded by the provincial W. C. T. U. to both
Dominion and Ontario Legislatures, asking
for the removal of certain articles besetting
the path of the young and unwary.Our most successful work in the past year
was that done at the brigade camp, when
during two days refreshment were pro-
vided from early morning until night, and
mental and moral food supplied to the
soldiers. The gratitude expressed by offi-
cers and men, but above all, the approval
of the Great Captain, under whom we were
able to render this arduous labor.Literature for soldiers was much needed,
and a number of our members, and Gospel
Temperance lecturers have been supplied to
the front lines of the front and the Grand
Trunk station.The space kindly granted in the Daily
Intelligencer, under the heading of "The
W. C. T. U.," has been most gratefully
received by our Committee, and we are
glad to see that the public mind is being
enlightened by the truth.Another committee has endeavored to
promote the use of unfermented wine for
sacramental purposes.It is our duty to record the death of
three of our members since our last annual
meeting, which reminds us that "the night
cometh when no man can work."May each of us receive at last the blessed
benediction: "Well done, good and faith-
ful servant, enter thou into the joy of thy
Lord."

TALK OF THE TOWN.

BECKMAN'S PILLS will well become they are. FRED ARABIAN, owner of marriage license, at the Ontario office. The special announcement of E. Harrison is postponed until October 1st. No person shall travel without a box of ARABIAN'S PILLS. As a safe and speedy remedy for constipation and all irregularities of the stomach and bowels, they have no equal, and being skillfully sugar-coated, are pleasant to take, and long retain their virtue. When the kidneys are clogged, good health is an impossibility; but when working properly the reverse is the case. The daily backache is the kidney's cry for relief. If DODD'S KIDNEY PILLS are used the result will be marvelous. We emphasize this fact that we have never known a case of kidney disease that a persistent use of DODD'S KIDNEY PILLS will not cure. The public are often very unjust but never consciously so. What they see clearly to be justice they always approve. It often takes a long time to bring them to see things as they really are, but in the end their verdict is always right. It was false in this idea which induced the manufacturer of the "Mystic Ray" tobacco to stand by their superior brand under every circumstance at the outset. The public verdict has been rendered at last, and it is emphatically in their favor.

You will live long if you cook with only Imperial Cream Tarrar Baking Powder. Always reliable, purest and best.

Nathan Jones.
This well-known dry goods house—the oldest in town—will not be outdone by younger competitors. See their list of bargains for Saturday night, which is given in our advertising columns.

Ready for the Fray.
The North went to the wars at Deseronto yesterday morning, after a run from Belleville, under a three weeks' armistice, of 1h. 40m. She will return this evening ready for Monday's race with the General.

Change of Business.
Owing to ill health, Mr. W. Brown, merchant tailor, has sold out to his son, Mr. George R. Brown, who will continue the business. Being thoroughly conversant with the trade, Mr. George R. Brown will give entire satisfaction to customers.

This fall sailing and comfortable steamer leaves Belleville for Trenton daily (Sunday excepted), at 10 a.m. Leave Belleville for Deseronto and Pictou at 8 p.m. Napanee and Oswego. Lowest freight and passenger rates. For further information apply to the Captain, Mr. J. H. Briggs, or to J. O. Carter, General Manager, Deseronto.

—The famous Dalton gang of train robbers has been captured at Deseronto, New Mexico.

—The S.S. Majestic has just made a winter trip in 5 days 15 hours and 47 minutes.

Edgar Backs Down.

He Refuses to Appear before the Grand Jury. OTTAWA, Sept. 15.—J. D. Edgar, M.P., has written to the Queen's Bench, declining to appear before them, or to submit any evidence against Sir Adolphe Caron.

SOCIAL & PERSONAL.

Mr. S. Hart, of Detroit, is visiting friends in this vicinity. Mr. James Harold, from Quebec, Calumet, is in town. The Rev. R. S. Furness, Rector of the Church of the Holy Trinity, is in the city. The condition of Mrs. Auger was this morning reported to be more favorable.

Mr. M. Stasheff, of Montreal, is in the city, the guest of Mr. Warrington. Mr. Stasheff is representative of the freight department of the Dominion Steamship Company, and is visiting the west in the interest of that company, which he finds has fully met the wants of shippers. He says that he has found the freight rates for the shipping of which they have made special arrangements.

Mrs. Ada M. Jones, of St. Thomas, a graduate of the Deaf and Dumb Institute, has been appointed on the teaching staff. In addition with the Division at Toronto, yesterday, Chief Justice Galt presided. L. H. Henderson, Belleville, was presented to the members of the Law Society, a member of the Law Society, and was sworn in and enrolled as a barrister. Mr. Walter Allard is at Kingston, where he has secured a contract for the erection of a new building for the Postoffice. He will get the buildings erected in the winter, and will then return home for a season. Mr. E. Widdan, of Detroit, publisher of the Courier and the Windsor Gazette, is in town on a pleasure trip.

Annual Meeting.
The annual meeting of the Tabernacle Auxiliary of the Woman's Missionary Society was held on Wednesday afternoon. The reports were very encouraging, both as to income and increasing interest. The election of officers resulted as follows:—Mrs. (Rev.) A. C. Mayne, President; Mrs. (Rev.) D. O. Croasley and Mrs. (Rev.) J. A. Campbell, Vice Presidents; Mrs. Theo. Spafford, Corresponding Secretary; Mrs. (Rev.) H. H. H. Treasurer; Mrs. W. H. Gordon, Mrs. F. P. Pym, Mrs. McCurdy, Standing Committee; Mrs. G. Gardner, Mrs. J. A. Mayne, to secure subscribers to Outlook. Mr. (Rev. Pres.) Dyer was elected delegate to the branch meeting to be held on the 25th of September at Oct. 4th, 5th and 6th.

Anglican Triennial Synod.

The triennial session of the Provincial Synod of the Anglican Church in Canada opened yesterday in Montreal. Bishop Baldwin, of Huron, preached the opening sermon, which was an able effort. Dean Strachan was appointed prolocutor of synod, succeeding Rev. D. Langtry, of Toronto, who asked to be relieved after six years' service. His successor, Canon Bratton, of St. John, N.B., as his deputy. The following officers were elected:—Rev. L. N. Tucker, clerical secretary; L. H. Davidson, lay secretary; A. F. Ganit, treasurer, and Charles Garth and Dr. Butler, auditors. The balance of the day's work was of a routine character.

Not All Alike.
There is a great difference in ready made clothing. Some stores carry nothing but such shoddy stuff that it drives people from buying ready made goods altogether. In clothing sold by the latter class of stores you get the first display of new goods and the best of the kind. It is not fair to say that it is not so much better than what you have had. Nobody knows better than the Oak Ball just what a reward and every facility is at our disposal for gathering late novelties. That makes our responsibility the greater.

Notice.

Fred. Signor, the world renowned celebrated clairvoyant, is at the Hudson House (late Kyle), for a week or ten days. Those having hard or soft corns, bunions, warts, ingrowing toe nails, and any defects of hands or feet, should secure his valuable services at once. Testimonials from all parts of Canada. No charge until a cure is effected. Patients treated at their residences if desired. Don't miss this opportunity. 10841m

A Murderer Confesses.

(Special to the Intelligencer.)
Toronto, Sept. 15.—A Harriellville, Mich. citizen has confessed to the murder of one of the most wealthy citizens of that place, who has confessed to having murdered his father, Richard Drake, of Strathroy, Ont., ten years ago. Drake had been finding fault with Henshaw's management, and one more decided business man, Richard Drake to the office, looked the body in the safe and fled.

Burial of Dr. Kilday.

The funeral of Dr. Kilday, of St. N. Ridley took place yesterday afternoon, under the auspices of Belleville's Lodge No. 81, I. O. O. F. The services at St. Thomas church and at the grave were conducted by Bro. The Rev. D. F. Rogers, Rector of St. John's. The Rev. A. L. Gean, Chaplain of Belleville Lodge.

A MIDLAND MIRACLE.

Narrative of Facts Connected With the Case of Mrs. F. A. Chase.

What wonderful progress the closing half of the nineteenth century has witnessed! Many of the most wonderful discoveries and inventions, which, while they have utterly revolutionized the methods of human life, are taken almost as a matter of course. How odd wonderful discoveries are made almost daily, we quickly adapt ourselves to the changed condition, and even wonder that the inventive genius of man had not long ago penetrated the secrets of nature, almost daily being brought to our aid. While in all directions great advances have been made, perhaps in none have the advances been so plain in the science of medicine. Old methods have entirely disappeared, the use of big nauseous doses, cupping and bleeding, have passed away, and diseases formerly held to be incurable now speedily yield to the treatment of skilled medical science. For more than a year past there have appeared in the columns of the *New-Letter*, from time to time, the particulars of cures that have been the wonder of all who were acquainted with the persons restored. Perhaps the case of Mr. John Marshall, of Hamilton, was more firmly fixed in the public mind, for the reason that he had been paid a total disability claim of \$1,000, only after having been pronounced incurable, and cured by a score of more or less, who are leaders in the medical profession. As publisher of the "Canadian Worker," the writer has a knowledge of the proceedings under which a disability claim is paid, and when it is understood that all such claims have to pass the scrutiny of an investigating committee, the Local Medical Examiner, the Grand Medical Examiner, the Finance Committee and the Grand Lodge Officers, it will be seen that in none but a genuine case of disability could a claim be paid. That the claim was paid Mr. Marshall under this stringent scrutiny was a superabundant evidence of his total disability; that he was afterwards made a well man was due entirely to a treatment of Dr. Williams' Pink Pills—probably the most remarkable medical discovery of the age. This case was the first of a series of cases equally remarkable, due to the same grand agency, each of which has been verified by the most trustworthy testimony. The *New-Letter* in common with many others, has taken a deep interest in the testimony given in behalf of Dr. Williams' Pink Pills, hence when the cure of Mrs. F. A. Chase was reported from Midland recently, we decided to interview the lady and verify the truth of the report; with this end in view, Midland was visited, and Mrs. Chase found to be what we had long years of suffering before she had learned of the efficacy of Dr. Williams' Pink Pills. Dr. Chase himself admitted the reporter, who found her a lady of superior intelligence—who while not wishing for notoriety, was willing to give her husband money in favor of Pink Pills, for the benefit of other afflicted persons. To the reporter she said, that up to her husband's case she had been a healthy girl, but at that period sickness overtook her, and for the next ten years her life was one of almost constant misery. In January, 1891, she grew worse, and finally had to take to her bed, and was reduced by suffering to the point of death. All the time she was under the treatment of leading doctors. After weary months Dr. Chase longed for some change, and in October asked her doctor if he would consent to her taking a trip to her husband's home, where he would give her a course of Dr. Williams' Pink Pills. She was finally agreed to, and on Oct. 31 she set out for that place. On the way, a lady, a stranger, who, she said, was from Port Hope, called strongly urged her to use Dr. Williams' Pink Pills, and again on her arrival at her husband's home, she was urged to use this wonderful remedy. On Oct. 10 she consented to give the Pink Pills a trial, and soon found such boundless effects that she needed no persuasion to continue the treatment. In less than three months she was fully restored, and on her return to her home in Midland, where her friends were rejoiced and gratified at the wonderful change which Pink Pills had wrought in her health and appearance. Mrs. Chase has since continued to enjoy good health, and says that she has never felt so well as she does now. Dr. Williams' Pink Pills, which have restored her from debility after many years of almost hopeless suffering, she has also expressed his thankfulness and appreciation of Pink Pills, and the unlimited pleasure with which he received his wife on her return, looking so well and happy, which was as he truly described it, "like restoring one from the dead." He said that his wife's condition had been such that in going only a few yards she would be obliged to rest, and could not walk more than a few minutes. She had been unequal to the slightest exertion.

Our Exhibition.

DEAR SIR,—It certainly should be the desire of every citizen to have a successful exhibition here this year. There is no reason why it should not be successful. It is a feeling of indifference on the part of the citizens of Belleville. Let them take an interest in it and do all they can to (further its success, and the country people will then do their part and attend in large numbers. I write this letter to make a suggestion to the ladies of Belleville, and that is to make a large show of what is called fancy work. The houses of many ladies much that is beautiful in pretty table covers, mantle drapes, stiles, silk pillows, mats, etc., and if the ladies would show these exhibits of their good taste and handwork, it would add greatly to the attractions of the building, and create additional interest in the fair. We all remember with pleasure the Art Loan Exhibition of a few years ago, and if but a small part of what was then seen could be displayed at the fair it would make a fine show. We would suggest that the ladies take this up with their usual energy and help make the exhibition success. Yours truly, W. FLINT JONES.

AMUSEMENTS.

THE CASTAWAYS.

To an audience of nearly seven hundred full of enjoyment and hilarity, Harry Lindley opened a new season at Opera House last evening. That the response to his efforts was so successful, goes without saying. The drama of "Reddy the Mail Girl," is a sensational western drama, and in common with all that class, abounds in improbabilities, but never loses in incident. The realism is wanting, but the humor, the excitement, and the pathos are all there. Miss Flint Jones of the cash could not complain of recognition. Little Ethel Lindley follows in the wake of her father, for she is a master of both business and dramatic manner, so to delight all. Miss Palmer's singing is lovely, and her acting is perfect. The play written by Mr. Lindley and entitled "The Castaways," is the attraction. The Canadian people are a better class of people, strong, what the scene effects are a feature. The prices are only 10c, 20c, and 30c. A matinee is given on Saturday.

We Have Found.

That no remedy in the market affords such prompt relief in toothache, neuralgia, and rheumatism, partial paralysis, locomotor ataxia, St. Vitus dance, nervous headache, nervous prostration, and the tired feeling resulting therefrom, as Dr. Williams' Pink Pills. It is a fact that Dr. Williams' Pink Pills restore pale and sallow complexion to the glow of health, and are a specific for all rheumatic and other ailments of the female sex, while in the case of men they effect a radical cure in many cases of chronic rheumatism, neuralgia, or excess of whatever nature.

These Pills are manufactured by Dr. Williams' Medicine Company, of Lowell, Mass., and are sold in bottles of 25c and 50c. They are sold in bulk, or by the dozen or hundred, and any dealer who will send a card to the publisher, Dr. Williams' Medicine Company, will receive a free sample of the Pills, and a list of the names of the dealers in the city.

BELLEVILLE, FRIDAY, SEPT. 16

OF THE TOWN.

BELLEVILLE'S PILL WILL DEBARRAGE THEM.

PAID ABRAHAM, former of marriage it, comes, at the Ontario office.

This special announcement of E. Harrison is postponed until October 1st.

The race between the North, of Belleville, and the South, of the Rochester, takes place at the Mammals Park on Monday 19th inst.

No person should travel without a box of Ayer's Pills. As a safe and speedy remedy for constipation and all irregularities of the stomach and bowels, they have no equal, and, being skillfully sugar-coated, are pleasant to take, and long retain their virtues.

When the kidneys are clogged, good health is an impossibility. But when working properly the reverse is the case. That is why the kidneys are the key to relief. If Dr. J. C. Ayer's Pills are used, the result will be marvellous. We emphatically state that we have never known a case of kidney disease that a persistent use of Dr. J. C. Ayer's Pills will not cure.

The public are often very unjust but never consciously so. What they are doing is to justify their always approve. It often takes a long time to bring them to see things as they really are, but in the end their verdict is always right. It was with this idea which induced the manufacturer of the "Mystic Navy" to stand by their superior brand under every disadvantage at the outset. The public verdict has been rendered in their favor, and it is emphatically in their favor.

TEMPERATURE.

As Registered by Dr. Bell's Self-Registering Thermometer.

SOCIAL & PERSONAL.

Major Creaser, who passed a long and pleasant holiday in Canada, left yesterday for his home in Ontario, where he is a well-known lawyer.

Miss G. Collins, of Belleville, is visiting friends in the city. Miss Mabel Kemp has gone to Belleville to reside with her father, the Rev. Mr. Kemp, of the Anglican Church.

Sir Wm. Ritchie, Chief Justice of the Supreme Court of Canada, is very ill, and has been granted six months leave of absence.

Van. Archibald Bedford Jones, rector of St. Peter's church, Brockville, has just returned from an extended trip across the Atlantic.

Louis Kossuth, whose name was familiar to the public half a century ago, is to have his 90th birthday anniversary celebrated tomorrow. He is now broken in health and unable to sustain even an hour's conversation with strangers.

Mr. G. H. Vanhook, local editor of the Peterborough Freeman, is in town.

Mr. and Mrs. F. M. Clarke and Mr. and Mrs. Wm. Rodd, of Belleville, were in town a few days ago calling on old friends.

Mr. and Mrs. Wm. Rodd, of Belleville, were in town a few days ago calling on old friends.

Mr. P. Sherbrooke, of the past few weeks the names of all your class with me, and shall preserve them, checking off their names as I hear of their success, so that I may have in your boys another illustration of the value of right influences in the start of life.

Well, here we are in London in the very heart of the world, for even in places of business you see names familiar in trade in all countries. We all know England manufactures for the world, but you don't realize it until you see the great distributing houses in London. Many of these, through the kindness of Mr. Ritchie and others, I have been permitted to visit and so to stand at the centre of one source of England's power. We came direct to London, wishing to be here in time for the London season when it seems as if all orators, singers and artists of whom one ever heard were here, and as an audience not only Great Britain but innumerable visitors from all countries. I have always wanted to hear Phillips Brooks, of Boston, but never could manage it until a few Sundays ago, when I heard him in Westminster Abbey and again in the evening at St. Peter's, Eaton square. To my mind no other man has ever been able to grasp the great truths of religion so strongly and present them so beautifully; he is a prose poet and every sermon is a great poem of truth. I only wish he had never accepted the office of bishop; I fear it will engross his mind too much with secular things and he will not get so much from him that will live. I heard Talmage at Dr. Parker's church and have heard Dr. Parker often, but am not sure I enjoyed him as I hoped to be. He has great genius and power, but does not carry you away from himself sufficiently.

Yesterday was quite a day with us; we went at 11 a.m. to Regent's Square and saw a very dry sermon, but the music was quite novel in these days but very devotional; no organ or instrument of any kind, only a psalmist and all the people sang. It was the most devotional, to my thought, of any service we had yet attended, and of course we have heard all that such organs and choirs can do. At 3 p.m. we had an engagement to meet the Rev. Dr. Griffin of Galt at Westminster Abbey, and by the way, we had to walk away down the Strand for lunch because London closes up her restaurants on Sundays, especially if they have a house to call on.

At Westminster the service was beautifully rendered and Canon Farrar, whom I have now heard many times, is not only a very able, bold, strong preacher but a very pleasant and all the people sang. In the evening we went to St. James' Hall, on Piccadilly, the Methodist West End Mission, where we heard a very fine sermon by that great audience, Dr. Griffin, Hon. Edward Blake and myself, and you know we all carried off a great basket of apples, and so physically did our country no discredit. Mr. Hughes is a very earnest and capable man, and he has a great deal in some way to see Mr. Hunter. He is just the man for his work and is just the man to lead the people in England. I hope I will be able to visit him, for it does not mean the building and keeping up a great church, but a man who is able to face with our Saviour so that they may know him and live like him. It is a pity that his value on more church growth and membership, knowing God and doing his will is the great object of his work, and he succeeds in giving men and women new aims in life.

Of the usual places of interest in England I shall not attempt to write, because so many have done it before me and so well. We spent two delightful weeks on the Lake of Windermere, the most charming place I have ever seen. It has its points to view because of historical association, such as the old Roman villa, Carlisle, which was the residence of the Duke of Devonshire, and Osborne Castle, the favorite residence of the Queen. We had a good opportunity of seeing her here, the court on the occasion of their landing at East Cove; but the real charm of the lake is in the scenery, giving to the landscape a tinge and shade impossible under other conditions. Some have said there is nothing so artistic as a haze, and certainly the poet's reticence is drawn in a haze that might make a home for fairies. No language and no picture could represent the view from Shanklin Down, where for miles the country is most richly wooded, and made to underline with a grace that you feel as you never can a picture from the hand of a human artist. I have left no uncorrected portion of this letter to be written in Switzerland.

We started for the continent August 13, intending to stay longest where we liked it best, and also in the most beautiful places. We knew we would in time come away. We thought we would go to the most beautiful places, and we knew we would in time come away. We thought we would go to the most beautiful places, and we knew we would in time come away.

IN EUROPE.

An Interesting Letter from Rev'd J. M. Hudson.

London, her Trade and her Preachers—Hudson and her Lake—The Alps.

The following letter from the Rev. J. M. Hudson, written to Mr. F. R. O'Flynn and his little class, was received a few days ago. It was probably penned just before Mr. Hudson's last illness developed, and enclosed some flowers from her. It will, we are sure, be read with interest.

30 and 37 Fleet Street, E. C.

London, Eng.

My Dear Mr. O'Flynn:—For some time I have had in mind to write you and your class; but it is rather a difficult thing to write a satisfactory letter in London while going about so much. I want to congratulate you upon your success in your annual school.

Mr. Curry, of Pictou, wrote to me the other day saying he met you at Glen Head, and that you seemed a happy crowd. How well we remember the delightful outing you gave us each of the three years we were with you. It is not very long ago, but somehow the mist of time and distance has gathered a little, and I find your account of the time and place in the cherished memories that come up again, pleasantly and helpfully. May your class always retain its splendid spirit, and so far as possible, make memory full of bright spots. I have the names of all your class with me, and shall preserve them, checking off their names as I hear of their success, so that I may have in your boys another illustration of the value of right influences in the start of life.

TALK OF THE TOWN

Reason! BERKMAN'S PILLS not like magic.

FRED ABRAHAM, master of marriage licenses, at the Ontario office.

A corpse man named Dennis Mandeville was arrested last night for drunkenness. He was discharged this morning.

Ayer's Sarsaparilla does what no other blood medicine in existence can do. It searches out all the impurities in the system and expels them harmlessly through the proper channels. This is why Ayer's Sarsaparilla is so pre-eminently effective as a remedy for rheumatism.

When the kidneys are clogged, good health is an impossibility; but when working properly the reverse is the case. That dull back ache is the kidney's cry for relief. If Dodd's Kidney Pills are used the result will be marvelous. We emphatically state that we have never known a case of kidney disease that a persistent use of Dodd's Kidney Pills will not cure.

There is not and there cannot be, any smoking tobacco superior to the "Myrtle Navy brand." A wrapper of brighter appearance and higher price it is possible to get, but all wrappers are very poor smoking tobacco and but a single leaf is wrapped round a plug. The plug used in the body of the "Myrtle Navy" is the very best which money can purchase. The powers of the Virginia soil can produce nothing better and no other soil in the world can produce as fine tobacco as this.

who were well represented. After the ceremony of dedication was over high mass was celebrated by the Very Rev. Visar General (archbishop) of Belleville. The musical portion of the ceremony was rendered by the choir of St. Charles Church, Belleville, who did themselves much credit under the efficient direction of Prof. Deane, the organist. After mass the Congregation of the church stepped forward, and on behalf of the congregation, presented the Archdeacon with an address, which was read by Mr. Danahy, in which the Archdeacon replied in his usual charming and eloquent style. He congratulated the people on the new and energy they had shown, and the sacrifices they had made, in the erection of one of the finest country churches to be seen in Ontario; he was glad to be able to

say that in all his experience—and he had built many churches—the people of St. Charles Mission had given him the least trouble. In fact he had no trouble, everything had gone on smoothly and harmoniously, without the slightest friction—all of which he attributed to the zeal of the people for the honor and glory of God, and assured them that such sacrifices were never made in vain. He also warmly congratulated the congregation on their financial position. After his Grace had finished his discourse a procession was formed, and the blessed sacrament transferred from the old church to the new edifice, and with the benediction of the Archdeacon the proceedings were brought to a close.

An Important Correction.

A lady writes us in connection of the cholera cure we published lately, in which the word "sugar" was substituted for "sassafras." We repeat the prescription in corrected form.

"THE SUN" CHOLERA CURE.
Take equal parts of
Tincture of opium.
Tincture of rhubarb.
Tincture of cayenne.
Spirits of camphor.
Essence of peppermint.
Mix well together. Dose, 15 to 30 drops in water; to be repeated in 15 or 20 minutes if necessary.

This is the original formula for the Sun Cholera Cure. It was given to the "Cholera" year, 1849, by George W. Basted and now a practicing pharmacist in this city. It was published daily in the Sun during the summer of that year; it was published at intervals for several years, and is now being published in the Sun probably 1000 times since it first appeared.

The Sun Cholera Cure has been adopted into the United States Pharmacopoeia, and is the most approved and reliable of any medical man in the country.—New York Sun.

Directors' Meeting.

The Directors of the Bay of Quinte Agricultural Society met on Saturday, at the office of the President, Mr. W. N. Ayer's Sarsaparilla does what no other blood medicine in existence can do. It reaches out all the impurities in the system and expels them harmlessly through the proper channels. This is why Ayer's Sarsaparilla is so very judiciously effective as a remedy for rheumatism.

When the kidneys are clogged, good health is an impossibility; but by using properly the reverse is the case. That dull back ache is the kidney's cry for relief. If Dadd's Kidney Pills are taken, the pain will be removed. We emphatically state that we have never known a case of kidney disease that a persistent use of Dadd's Kidney Pills will not cure.

There is not and there cannot be, any smoking tobacco superior to the "Myrtle Navy brand." A pipe of brighter, purer and higher price it is possible to get, but all wrappers are very poor smoking tobacco and but a single leaf is wrapped round a pipe. The stock used in the making of the "Myrtle Navy" is the very best which money can purchase. THE FISHER CUP.

THE ONWARD WINS IT BY A SLIGHT OF WIND.

One of the Grandest Races Ever Seen on Fresh Water.

It was a great race—one of the grandest ever seen on fresh water—such was the expression of yachting men in the city of the fisher cup (onboard of the champion) of the Onward on fresh water which was sailed here yesterday between the North and the Onward of the Rochester Yacht Club.

The North is the faster yacht of the two, but a sudden draft of the wind to the southward of the North, and her antagonist, thus depriving her of a gallantly earned victory. At the start the Onward led, but the North passed her; then the Onward, through superior power in carrying sail, went to the front, though the North, by skilful handling, regained the lead and increased her advantage; then a shift of wind deprived her of a part of her lead, and although she still continued to gain, she could not make up sufficient to concede her line allowance. Such is the story of the race to brief. The details we append.

Julius A. Hyman, for North; J. A. Gas, Albany, referee.

Borness—Geo. F. Thompson on Onward; Henry Miller, Rochester, N.Y., on North.

The course was the usual triangle on Big Bay, and the wind being at north, they were sent to the south buoy first, giving them a start to the north buoy.

The race was timed at 11:00—first gun at 12 o'clock, and the hands were up over two minutes, and, as they crossed the line they presented a pretty sight, both carrying working gear to the line, but whereas the North had a single reef in her mainsail, the Onward carried her whole mainsail and a balloon foresail.

Onward began to gain on their course, North to windward, and heavy puff came from the west occasionally. It was very even sailing, but North had a little the best of it, turning the first buoy at 11:34, some 20 seconds ahead. Having been 7 seconds behind on the start, this was a gain of 27 seconds from the start.

On the north buoy, they continued to sail very evenly, but the wind breezed up heavily and the North began to haul her light course, the Onward passed her to leeward and took the north buoy first by provision at 12:05. It was a hard chase up under the north shore, but the North gained slowly in spite of more, but had knock down, and the Onward passed the home buoy at 12:21, she was but 42 seconds behind.

At here skipper Black refused the lead by a two minute of seamanship. The Onward passed the buoy and tacked, but the North jibed immediately after passing and the North, although to leeward, shot away from her competitor like a hand from the leash. Lead chose from the Onward to the North, greeted the start.

On the run down there was a good deal of jockeying for the windward position, whilst the North continued to gain. At the end it was 12:54 when she rounded the south buoy the second time, whilst the Onward was 15 seconds behind.

At the north buoy, the North was hung on by her mainsail and jib, but the Onward hoisted gaff and jib spinnaker, but the North continued to gain. At the north buoy, which she turned at 1:08, she had a lead of 2 minutes. This she increased by 15 seconds on the run, the home buoy being rounded by the North at 1:30:10 and by the Onward at 1:32:35. They both jibed around the home buoy, but the North made the best jibe.

At the south buoy the North was over 4 minutes ahead, but the North shore the Onward gained more than 1:35 turning the mark at 2:30, 30 minutes behind, a shift of wind benefiting the Onward materially. On the run up the North gained slightly, finishing at 2:40:25, the Onward at 2:42:20.

On the 23rd behind. The Onward thus won by 1:24, her time allowance being 35.35s. The North was defeated, but by no means disgraced. Mr. Bell has spared neither pains nor expense to defend the cup, and although the trophy, by a turn had been won by the Onward, he has the satisfaction of knowing that his yacht is the superior of the North, which he had lost to the Onward, and in a fight race out of two would be the winner.

The great loss of the cup, but are glad that it has fallen into the hands of true sportsmen and gentlemen such as those of the Rochester Yacht Club.

The victors celebrated their victory last night, chiefly at the Queen's.

There was a good attendance at the race and much interest was manifested.

Mr. Geo. F. Thompson took his record. He had, previous to yesterday, sailed in 25 races, as sailor-man (sawyer) and scratcher, but never before on a winning yacht.

Mr. John Bell, O. C. asked that the yacht be measured, as the result was so close.

Mr. Corby, M.P., had a large party on the Onward.

Mr. Bell and family viewed the race from Mr. Rathbun's place in Kingston.

Mr. Carman had a numerous party on his steam yacht Osanna.

Mr. J. A. Gas, referee, took a private party to the Point.

The yacht Dauntless accompanied the race over the course.

The measurement of the yacht resulted as follows: North 57:50; Onward 55:57. North allowed 51.50s; Onward 46.5s.

Never before. The Onward had better opportunity for efficient service in her last race. As clothing providers we take no good position to any race in Canada. Our prices are the fairest that can be given to the public.

There has not been a single dull day during September so far, and trade generally is expected to be dull. What will it be shortly when fall goods have been purchased? Right now we are very busy and there never was better money's worth to be had. We're ready for the crowd.

Notice.

MUNICIPAL LEGISLATION.

After a Recess the Aldermen Again at Work.

A Longish Session but Not Much Business Transacted.

After an adjournment for a few weeks the City Council met last night for a special session. His Worship Mayor Rogers presided. Aldermen present were—Clarke, Foster, Ponton, Gordon, Slater, Doyle, Wainwright, Taylor, Lacombe, Lingham, Griffin, Powell, Wallbridge, Kesteven, Sharvin, Hughes, Mikel and Diamond. The minutes of last meeting were read and confirmed.

CONCURRENCE.

From Mr. Carr, civil engineer, stating that he had about completed the plan of the city and asked for remuneration to the extent of \$100.

From John Dalton protesting against a railway siding being placed near his property on Flinnville street.

From J. P. C. Phillips re taxes.

From Mr. Kesteven giving details of work done by him since his appointment as sewer inspector.

A petition was presented asking that the electric light on the corner of Commercial and Charlotte streets be removed and the gas lamps in the vicinity be re-lit.

CONCURRENCE.

The Executive Committee's report recommended the payment of some accounts. The Fire Committee recommended payment of several accounts, and also that a hose wagon be purchased, the cost not to exceed \$250.

The Public Works Committee recommended that 100,000 feet of plank and 50,000 feet of cedar scantling, be purchased for next year.

The Water and Gas Committee recommended payment of a number of accounts. The By-law committee recommended that the petition of Mr. Graham, re a railway siding on Flinnville street, be granted.

The Council went into committee of the whole on reports. Ald. Gordon in the chair. The Executive Committee's report was adopted without discussion.

The Fire Committee's report was next considered; the accounts recommended to be paid were passed; the recommendation that a hose wagon be purchased, caused some discussion.

Ald. Powell said the committee were unanimous in recommending the purchase of such a wagon. It was necessary to have either the old carts repaired or new wagons provided. He did not think it wise to repair the old carts, as it would cost considerable. The hose wagon would give better satisfaction than a reel.

Ald. Slater spoke in support of the committee's recommendation.

Ald. Foster said it was necessary to have a wagon which would not oppose it, but if the reel which he would not use he would like them to be used. If, however, a new wagon was to be purchased, would local manufacturers have the privilege of making it?

The Mayor stated that the reels were in a dilapidated state, and he would support the recommendation. He would like to see the wagon built in the city.

Ald. Powell stated that the wagon would be built in the city.

After some further discussion the matter was referred to the Fire Committee with power to act.

Ald. Wallbridge, Griffin, Taylor and Lingham spoke in support of the committee's recommendation. The lumber would be more available if delivered during the winter and summer.

Ald. Diamond contended that it would be an illegal act to get the lumber and ask the Council to pay for it.

The matter was, on motion, referred to the Executive Committee for the purpose of obtaining an opinion of the City Solicitor as to its legality.

The Board of Health recommended that the market square be cleaned and that the person who cleansed the street be authorized to place low water on Front street, unless high winds prevail.

Ald. Slater stated that the City street drain had not been attended to, although the Council had authorized the placing of it in a good condition.

(In motion the recommendations of the Board were adopted.)

On the removal of an electric light on the corner of Commercial and Charlotte streets, caused some discussion.

Ald. Wainwright asked the light not to be removed, as it was a good light to the vicinity in which it is placed on account of the trees. He moved that the prayer of the petition be granted.

Ald. Ponton said that all through the winter the light and well be dispensed with. The expense of putting in gas lamps would be considerable.

The communication of Mr. Carr asking for \$100 for the plan of the city was taken up and referred to the Executive Committee.

The petition of Mr. Kesteven to be appointed as Sewer Inspector was read.

Ald. Wallbridge stated that Mr. Carr was now present at the City Hall and he should be allowed to go on with the work. The matter was allowed to stand for the present.

report was received and adopted.

Moved by Ald. Slater, seconded by Ald. Lacombe, that the Street Surveyor be instructed to act upon the report of the City Engineer and have it properly laid. Referred to Public Works, with power to act.

Moved by Ald. Slater, seconded by Ald. Lacombe, that the Grand Trunk Railway having closed the south end of French street, thereby compelling the residents thereon to go around by way of College street, the Street Surveyor be instructed to construct a culvert near the south end of said street, and also cover the roadbed with broken stones. Referred to Public Works committees.

Moved by Ald. Wallbridge, seconded by Ald. Hopkins, that a committee composed of the Mayor, Ald. Wainwright, Ponton, Diamond and the mover and seconder be appointed to examine the plan of the city prepared by Mr. Carr.

Moved by Ald. Wainwright, seconded by Ald. Wallbridge, that the Board of Health be authorized to place the electric light in a good sanitary condition. Carried.

Ald. Wainwright moved that the number of electric lights be reduced from 30 to 33.

The eyes and ways being called for, resulted as follows:

Yas.—Clarke, Lingham, Sharvin and Wainwright—4.

Nays.—Diamond, Doyle, Foster, Forrell, Griffin, Hopkins, Lacombe, Mikel, Ponton, Sharvin, Slater, Taylor, Wallbridge.—13.

Moved by Ald. Ponton, seconded by Ald. Wainwright, that in view of the approaching Bay of Quinte District Exhibition, Bridge street, north of the fair grounds, and Charlotte street, leading to the fair grounds, be immediately put into a good state of repair and rendered safe for traffic of light and heavy vehicles. Carried.

NOTICE OF MOTION.

Ald. Diamond gave notice that at the next meeting of the Council he would move to introduce a resolution authorizing the remission of the taxes upon the personal property, assessed to Mr. O. P. Holton, owing to his great loss by fire.

Ald. Clarke said that the gas lamps and posts not in use, be an improvement, and that they will be kept in good condition.

Ald. Ponton gave notice, that the committee on Indentures and Hallways be authorized and empowered to take such steps by advertisements, circulars, or otherwise, as may be necessary and advisable, to call the public attention of electric power companies and capitalists to the fact, that the widening of the streets of the City of Belleville will be granted (subject to the usual conditions and statutory provisions) to any person or company who will construct, equip and operate an electric street railway, upon such sections of the city as may be mutually agreed upon.

Ayer's Sarsaparilla does what no other
blood medicine in existence can do.
It cures all the impurities in the system
and expels them harmlessly through the
proper channels. This is why Ayer's Sar-
saparilla is so pre-eminently effective as a
remedy for rheumatism.

When the kidneys are clogged, good
health is an impossibility.
It is the duty of every man to keep
properly the reverse in the case. That
dull back ache is the kidney's cry for relief.
If Dadd's Kidney Pills are used the kidneys
will be relieved. We emphatically state
that we have never known a case of kidney
disease that a persistent use of Dadd's Kid-
ney Pills will not cure.

There is not and there cannot be, any
smoking tobacco superior to the "Myrtle
Navy brand." A pipe of Myrtle Navy
tobacco and higher price it is possible to
get, but all wrappers are very poor smoking
tobacco and but a single leaf is wrapped
round a pipe. The stock used in the body
of the "Myrtle Navy" plug is the very best
which money can purchase. The power of
the Virginia soil can produce nothing better
and no other soil in the world can produce
as fine tobacco as that of Virginia.

Thanksgiving Day.

Thursday, November 10th, has been ap-
pointed Thanksgiving Day for the Do-
minion.

Trains Delayed.

The express trains from the east were
several hours late this morning. This was
owing to a glitch in which occurred near
Montreal.

Sweep of Flies.

Produced from the laziness and nutritious
joints of California flies, combined with the
medicinal virtues of plaque known to be
most beneficial to the human system, ac-
cording to the liver kidney and bowels,
effectively cleansing the system, dispelling
cold and headache, and curing biliousness.

Bible Society Anniversary.

The Rev. Dr. Grant has consented to
give the address at the annual meeting of
the Bible Society in this city, Tuesday
evening, October 4th. The Society are
most fortunate in securing Dr. Grant who,
probably, the most eloquent and cultured
speaker in Canada.

AMUSEMENTS

THE TWO DUARDS.

The next attraction at the Queen's Opera
House, will be the first appearance of the
Frost & Fauschaw Co. on Friday and Sat-
urday evening next, with special Saturday
matinee. The opening play is The Two
Duards, with new and special scenery.
Little need be said of this play, its reputation
as a dramatic being well established
throughout the country, and when present-
ed by such a talented company as Frost &
Fauschaw, there is no doubt that it will be a
great treat. Plans now open at Rugg's music store.
Popular standard prices.
Notice from the press regarding the Frost
& Fauschaw Co. which appear here Friday
and Saturday evening.
"The best company of the kind ever seen
here."—*Albany (N.Y.) Argus.*
"Caught the town last night."—*Syracuse
Standard.*
"The actors were fine, stage settings mag-
nificent."—*Buffalo Express.*

The Cycling Fair.

The Directors of the Bay of Quinte Li-
terary Fair are endeavoring to make the com-
ing exhibition the most successful that has yet
been held here. Entries in the various classes
are large, and the prospects are that the
space in the main building will be all taken
up with exhibits by the merchants.

The Fair Managers have secured at a
great expense a fine attraction for each day
of the exhibition.

On Thursday the last and best of all,
horse racing and Roman chariot races.
Beautiful ladies drive chariots at a high
rate of speed. This event alone always at-
tracts great crowds. A procession in which
the chariots will take a prominent place
will leave the upper bridge at one o'clock
on Thursday.

Mr. W. H. Kitchison has secured the
contract for the dining hall and refresh-
ment booth in connection with the fair.
Messrs. Henry and Hudson will supply
hay, straw and grain.

Prosecutions Entered.

Manufacturers of threshing machines
were last week presented and convicted in
different parts of the province by the In-
land Revenue Department through Mr.
Wm. Johnson, of this city, for allowing
their machines to be sent out with
their threshing machines, and now pro-
secutions will ensue against grain threshers
for selling and having in their possession
these unlawful machines. Mr. Johnson has
recently entered many more serious com-
plaints against grain threshers. He has
the township of Amelburg being charged
with wilfully diminishing two measures so
as to make them measure legally, from one
and a half to two inches having been
taken off the lower rim, and the bottom re-
sulted, although they were stamped mea-
sures. The one in Tyndalburg had false
bottoms in its measures. He probably
harmed this trick from an enterprising
firm that once flourished in this city.

SPORTING NEWS

STEPHENSON'S FART CENTURY.

KINGSTON, Sept. 20.—G. F. Stephenson,
of Toronto, rode to day from Kingston to
Belleville and return, 100 miles, in 48m. 39s.
—leading Stephenson's record is 48m. 39s.
On the way a bolt loosened, which took
between 10 and 15 minutes for repair. He
was compelled to ride several miles with one
wheel before he could secure a wrench and
tighten the bolt. He had also to pass fully
200 rabbits on the way to and from the
Napanee Fair, and they greatly hindered
him. Stephenson is the only rider in five
minutes. Stephenson also holds the record
between Toronto and Trenton.

At Independence, Ia., John S. Johnson
livered the mile bicycle record yesterday
to 2:04, standing start.

They Looked Around.

We've got an overcast sky at the Oak
Hall big enough and stylish enough to talk
about a "go" for 100 customers have been
here during the past ten days who've not
been obliged to purchase at any par-
ticular store. They've been looking around
and from them all we've had pathetic
and practical approval of the work of the
store. We put them to rest this evening. We
don't believe there exists a retail or whole-
sale store in Canada that does more work
of a reliable and wearable character
superior to the Oak Hall. All we need is
the opportunity to do more work. We are
daily doing to scores, that our claims are
justified.

Notice.

Prof. Signor Emilio, the world-renowned
celebrated chiropractor, is at the Hoffman
House (4th Ky.), for a week or ten days.
Those having hard or soft corns, bunions,
warts, nails, ingrowing toe nails, and any
defects of hands or feet, should seek his
valuable services at once. Testimonials from
all parts of Ontario. No knife or any pain-
ful method used. No charge until a cure
effected. Patients treated at chiropractic
if desired. Don't miss this opportunity.

Charmed With It.

Mr. G. L. White, of Syracuse, N.Y., a
prominent member of the Syracuse Cycling
Club, is spending his holidays in and around
this city, with his friend Mr. W. H. John-
son. He thinks the ride was just fine.
He says he had as good a time in New York
State, and thinks the scenery of the Bay district
charming. Both young gentlemen have
their events with them, and are looking for
a good deal of riding in this County and that
of Prince Edward.

Dress and Mantle Making.

Mrs. Orr takes pleasure in announcing to
the ladies of Belleville that she has suc-
ceeded Miss Olmstead in the business for-
merly carried on by the latter over Owsen's
book store. Ladies requiring dressmaking,
will find my work prompt and satis-
fying.

Fall Openings.

MR. BEECHAM & CO.

On entering the show rooms of this firm,
one is confronted with an almost endless
variety of beautiful things. The millinery
is pronounced by the ladies to be perfectly
changing, while the styles are very much
changing, differing widely in many respects
from last season's fashions. The most we
can do is to note a few striking features
which Miss Irwin, the artistic manager,
kindly pointed out to our reporter.

Though Paris leads the fashion in ladies
head wear, the French styles are not fol-
lowed so slavishly as formerly. The French
models have a tendency to be considerably
larger than in the spring, while the prevail-
ing shapes adopted in New York are ex-
tremely small. In fact, bonnets with point-
ed front, something like the Marie Stuart,
are seen, the edge of the brim having point
fringe of sequins, or sequins falling over
a velvet band that lies closely to the
head. Touques, slightly oval without, and
made of cloth felt, or velvet. Large
brimmed hats are used greatly, and are
trimmed in a variety of ways, with either
Mosses or young ladies. Some of the French
lets hats in light tulle and "mousse" above,
are very lovely. Generally the colors are
lighter for the coming season than in usual
for the winter. White, beige and cream,
with the light brown were last season,
remain much in favor, a number of dis-
tinctly new shades appear, such as the
Moplah, which is a glowing brilliant tint,
and Diavolo, a dull yellowish red. Steel
tints are largely represented and other
metallic shades, such as argente, nickel and
platin. There is also a pale green called
"suzanne," a reddish purple, and a lighter
tint called pale purple, which makes a
beautifully soft combination. The fabrics
employed are soft pliable felt cloth; a
plated material made of thin strips of felt
is also used. Beautiful effects are produced
in shawl velvets and changeable cord
velvets, but plain Lyons velvets will be the
prevailing thing. For trimming, fancy
feathers will be the correct thing for the
season, and these are shown in endless
variety and in many strange and unusual
shapes, such as bat's wings, Moplah
curves, etc., not to mention ducks' ears
made of fur edged felt. Beak-like and sharp
of large size are favorite ornaments, and
Alaskan bows of string beads of jet and of
colored stones are some of the novelties,
and are very effective. After noting a
pretty collection of children's hats and the
fine display of ladies' mourning bonnets,
we passed to the mantle room and here
Messrs. Hilditch & Co. surprise us by dis-
play they have yet made both in quality,
quality, and style. It would be impos-
sible to enter into detail here, but the
great variety in material and in shape of
fashionable walking jackets: there are rich
plush and velvet jackets, together with
caps to all the latest fashions in cloth, silk,
plush and mattelasse. These goods we are
assured to be the best in the world, and even
the very cheapest are perfect model shapes and
well made and stylish. The mantles to-
gether with this rich display are shown in
large range of waterproof garments, includ-
ing the celebrated Haptonette waterproof
which is shaver proof without containing Indian
rubber, and consequently void of any dis-
agreeable odor. The main store is stocked
as usual with all the newest things in dress
goods and fashionable trimmings to match
—silk, velvet, hosiery, gloves, etc.

The carpets and house furnishings, which
constitute one of the largest departments
in the house, occupies the second and third
floors. This department draws large custom,
not only from this neighborhood but from
distant parts of Ontario, and when one has
found all that is beautiful for decorating
our homes.

DESERONTO.

Persons—Improvements Being Made—
Quot Match.

(From our own Correspondent.)

Deseronto, Sept. 20.

The Misses Thackeray, of Sidney, were
the guests of Miss McLaughlin last Sunday.

Miss Nathan, of Belleville, was the guest
of Miss Chamberlain last week.

The Methodist parsonage has recently
been repaired.

Mr. Geo. Stewart is building an exten-
sion to the Deseronto House, which will
soon be completed.

The Board of Health are about to make
some radical changes in the sanitary regu-
lations of the town.

Rev. G. H. Copeland, of Picton, occupied
the pulpit of the Methodist church last
Sunday.

Miss Jennie Gowan, of Kingston, has re-
turned home after a prolonged visit among
friends in Deseronto.

Mr. Wm. Stoddard left this morning to
attend the Montreal exhibition.

The ladies of the Methodist church will
hold a bazaar in the Baker block to-morrow.

Mr. B. H. Clark, the well known Toronto
electrician, will give dramatic readings in
Union Hall next Thursday evening, 21st,
under the auspices of the Mechanics Insti-
tute.

Last week Amos Richardson, carpenter,
while removing a building along the bay
shore, had his arm dislocated. He was
brought to the hospital and is now recovering.

This afternoon a game of quills was played
here by Mr. Frank Mann of Deseronto,
and Mr. Thompson, of Newburg. Mr.
Clark won the game by 51 to 38.

HILLIE.

Personal—Good Killed—Sheep Worried by
Dogs.

(From our own Correspondent.)

Hillie, Sept. 19.

Messrs. James Carter and Frank Jones
and Misses Mabel Leavens and Rosanna
Jones were visiting friends at Belleville on
Sunday.

Mrs. William Dibble, of Campbellford,
is staying a few days with her sister, Mrs.
Benjamin Palmer.

E. P. Palmer's cows got through the
wire fence, which was broken down, and
on the O.C.R. track on Thursday, one
of which was struck by the train and in-
jured so badly that the railway man killed
it the next day. Mr. Finley Pys had three
sheep killed by the same train a few days
before. The railway fence needs repairing
very badly.

Mr. James Davidson's son heard a noise
outside a few nights ago, and on going out
found two dogs near his sheep. One of the
dogs was a fine St. Bernard and his
owner, Mr. Eddie Clark, had refused \$25
for the dog. The dog was shot and the
owner was informed that he dog coming home
and promptly shot him. The other dog
has not been found yet. One sheep was
killed and eight more were hurt so badly
that they had to be killed.

Mr. Jas. Nixon and wife, and Mrs. Wm.
Christie, of Bloomfield, were visiting at Mr.
Robt. Tarr's on Sunday.

Mr. Tarr, the Hillie, the Presbyterian min-
ister, exchanged pulpits yesterday with Mr.
Tarr, of Hillie.

The bad boys were at their pranks again
on Sunday night; several boards of a side-
walk were fired at and broken. One sheep
was returning home from church; however, no
one was hurt. The ladies are known, and if
it occurs again they will be visited by White
Caps.

Preferential Trade.

Disadvantageous trade properly consists in giving the preference to Burdock Blood Bitters when seeking for cure for humors, jaundice, dyspepsia, biliousness, indigestion, acrid, poisonous humors, bad blood, rheumatism or kidney complaint. It is the true cure, and has cured cases which had resisted all other treatment.

A COUNTRY BLAST.

The friends and admirers of Hon. Edward Blake, as a champion of Home Rule for Ireland, gave him an enthusiastic reception in Toronto last Monday evening. This demonstration of approval was not confined to political friends. One of the household in which the speaker was about to appear when asserting their sympathy for the work being done by the honorable member for South Londonderry in the Imperial Parliament. They were willing to forget old feuds and animosities in order to unite to boom the emancipation of Erin from the thrall of some kind of an oppression. It was an interesting occasion, and the guest of the evening delighted his hearers with a characteristically eloquent address in his present position. But there was another, and by no means insignificant class of men who did not join in the demonstration. They decidedly objected to the Irish home rule doctrine, and expressed a determination to get up a counter agitation to show that there are two sides to the question here as well as in Great Britain. The evening following the Blake hubbub these anti-home rule agitators met in the same city, and proceeded to make a noise that quite eclipsed the best efforts of the other party. They had their own platform, from the old one, on the platform, who gave utterance to sentiments that evoked tremendous enthusiasm. The G.O.M. was not presented as an infallible guide of superior wisdom and goodness, but was relegated to a miserable status as a statesman. Altogether the demonstrations have created considerable amusement, and have interested many.

SANITARY PRECAUTIONS.

It is not probable that the cholera scourge will find a dangerous foothold on this continent this year, but the best authorities do fear a forward movement with the advent of warm weather next spring. It is also quite possible that the cholera is more exempt from contagious diseases of any kind than most other people. We have a country as yet sparsely settled, and blessed with the purest air and healthiest climate on the earth. Our people, as a rule, are comfortable in life, and free from the personal cleanliness and moral purity. These characteristics are known to be safeguards against disease, and especially against cholera, which feeds on filth and physical infirmity. But we are not absolutely safe from the danger. In nearly all thickly settled communities there are plague spots of more or less danger to the general health of the people. We believe Belleville will compare favorably with most other suburban localities in this respect. There are, however, agencies in our midst that cannot be regarded as harmless. That part of the city known as "the plains" is a good deal of a plague spot. It is a low, swampy tract of land, and it would prove a fruitful soil for the development of the cholera germ. It may be impossible for the health authorities to make it safer, but casual observers find much open to improvement. Water was known to be the most prolific source of the multiplication and extension of the cholera germ. In the water used by all the residents of that quarter of the city the best that they can get. We are informed that many of them use water from wells sunk on the flats, and subject to contamination by seepage and surface drainage. If so it is fraught with much danger to the whole city. And, we may reasonably say, what about the general water supply? Have all necessary precautions been taken to render it as harmless as possible? The promise for sewage at the institution has not yet been put into operation, but we are informed that the necessary machinery will be ready in a few days. With the best precaution possible there will be lurking elements of danger that must be minimized as far as possible and available means will be taken. "An ounce of prevention is worth a pound of cure." Now is the time to prepare for emergencies that reliable authorities assure us may come. The sanitary condition of our city should be made as perfect as it possibly can. Then, if the people live rationally and observe the well-known laws of nature, there need be little fear of the cholera filling our grave yards and desolating our homes.

THE 23rd Session.

An auspicious opening of the Institution for the Deaf. The 23rd session of the Ontario School for the Deaf opened on the 14th inst., and is now well under way. The Superintendent reports a large attendance, the accommodation of the Institution being fully occupied. There are nearly thirty new pupils among the children, and nearly all promise to make bright and interesting pupils. Some of the students, who had passed through the course of study, or reached a limit of time, did not return to school. Their places are more than occupied by the juvenile newcomers. Mr. Matheson had remained at the Institution all the summer months, and now, having well the class standing of each pupil, was able to have the work of classification so far advanced as to occupy little time in the opening exercises. On the following Monday (19th inst.) each teacher knew how many pupils were assigned to his or her care for the seasonal term, and what their individual characteristics were.

Monthly Prices for Boys and Girls.

TALK OF THE TOWN.

BERNARD'S FILLS are faithful friends.

DEACON & DOYLE do farmwork with

reputable of all kinds.

MR. S. BURTON has some English hilly

growing at his restaurant on the market.

FRED ARABIAN, master of marriage li-

cence, at the Ontario office.

If you want to get the best shaves and

ranges to the market, go to Deacon & Doyle.

Don't forget that Deacon & Doyle will

put your shaves on the shortest notice.

In an age of fraud and adulteration, it is

certainly gratifying to know that one can

extensively use preparation as Ayer's

Sarsaparilla may be implicitly relied upon. It

never varies, either in quality or in effect,

and is always up to the standard.

The manufacturers of the "Myrtle Navy"

tobacco testify the closest scrutiny of its

quality. The expert who inspects it

teach him to recognise the exact quality of

tobacco, and the smoker who judges by his

experience in smoking it, will both come to

the same conclusion that it is of the very

highest quality anywhere to be found. It

is made of the very finest Virginia leaf and

is manufactured with the greatest possible

care.

There are more cases of sickness and

death from diseased kidneys than from

all other diseases combined. It is your own

fault if you allow your kidneys to remain

in an unhealthy condition when the cure

is at hand. Dodd's Kidney Pills are guar-

anteed to cure the most obstinate cases.

Little to give them a trial. They are for

sale by all druggists and dealers or by mail

on receipt of 50 cts. or 6 boxes for \$2.50.

A fire, which was happily extinguished

with but little damage, occurred in Geo.

THE FAIR'S FIRST DAY.

A Large Number of Additional Ex-

hibitors Made.

A New Hotel in the Afternoon—Not Much

Interest Taken in It.

The attendance at the grounds yesterday

was fairly good, but by no means what

it should have been. No speech making

or formal opening was indulged in, the

day the exhibitors were busily engaged in

making the final touches to their displays.

The main building is now filled to that ex-

tent which was anticipated by the directors,

but it is owing to no fault of the directors

(Management). A few of those who had

intended to make displays returned at the

last minute. This is not so it should be

attractive as possible, and the merchants of

the city should endeavor to do their part in

maintaining it. Those who have made ex-

hibits have arranged them in a tasteful

manner, which caused favorable comment.

In the bustle of preparation yesterday our

report was made and a few more occurred

and in fact other exhibits have been added.

The Ose Company shows several

fine stores of the newest designs. Mr. S.

Barrows, agent of the O.P.R. Co., has

an exhibit of the North-West Farming

Company. Mr. Jas. Osepeid has a

display of harness. The ladies have also

added a number of new dresses to the

building, by placing in it a beautiful

display of fine arts.

On the outside, additions have also been

made. Adm. H. Powell has a large exhibit

of farming implements, also a number

of vehicles, for which he is the agent. Other

items have also been added to the grounds.

During yesterday a number of cattle arrived

from various parts of the surrounding coun-

try. The exhibit of cattle is the largest

yet seen here for years. There is also a

large exhibit of sheep and swine.

While the exhibit of horses is not as large

as has been seen here, there are some fine

animals shown. Mr. T. H. B. Parry, Sidney,

has a beautiful 2 year old colt, named

Mitochond.

The first event after dinner, and, in fact

the only event which attracted the attention

of the spectators, was the three minute trot-

ting race. Mile heats, best 3 in 5. On

the trotting race, 4 to enter and 3 to

start. Entrance fee \$2. First \$20; second

\$10; third \$5. Kiltipate up to Sept. 1st.

There were four entries as follows:

Golden Bow, b. m., N. L. Lawson, Bright-

on; Beattie M., b. m., E. Brown, Napawan;

Beattie, b. m., W. W. Chapman, Plainfield;

Beattie, b. m., W. W. Chapman, Plainfield;

Beattie, b. m., W. W. Chapman, Plainfield.

The judges were Jas. Kitcheson, J. Mo-

laron and W. H. Morris. In the first heat,

after a number of unsuccessful attempts to

score, the horses were finally sent off.

Golden Bow at once took the lead, and al-

though closely pressed by Beattie M., was

enabled to lead to the finish. Beattie M.

was a long way in the rear. Time 3:03.

The second heat was well contested one

between Golden Bow and Beattie M., and

at the finish both passed the wire together,

making a dead heat. Beattie M. was 3rd

and Lady Watson 4th.

In the third heat

Beattie M. and Lady Watson being with-

drawn, the race was between Golden Bow

and Beattie M., but the latter, although

leading, was unable to hold her position

and broke down near the home stretch on

the last lap, and this fell back to second

place; Beattie M. 3rd. Time 3:01.

In the final heat there were but two,

Dachler Bow having thrown one of his

front shoes, was allowed to retire. At the

start Golden Bow obtained a slight lead,

which he maintained until the finish of the

HARVEST & CROCKET.

This old established and reliable firm have

to send a fine exhibit of boots, shoes, hats,

trunks, etc., taken exclusively from their

ordinary stock. Some of their goods are

of American manufacture, also English and

Canadian goods. Owing to the amount

of business transacted by this firm and

the attention to their interests, the busi-

ness done by them has increased in volume,

until to day they carry on a heavy and suc-

cessful trade in the city. Promptly they

supply the large stores in Belleville, Kingston,

and Trenton, they are constantly making

heavy purchases; this enables them to buy

at prices greatly reduced to the retail, and

consequently they are in a position to offer

goods at less than usual prices. At present

they have a large stock particularly adapted

to the fall trade.

A. H. HARRIS & CO.

Messrs. J. R. Harris & Co., who have for

the past 20 years done business in Bel-

leville as sewing machine agents, have with

the addition of a new exhibit, which

shows the new machines, the machines

shown are the New Williams and the Tay-

mond, both first class in every particular.

The Williams is a wholly a Canadian

product; it is manufactured at St. Henri,

Montreal, at the Company's works, of

Mr. G. W. Davis, a Belleville boy, is the

manager. Mr. Davis is a skilled machinist,

who has "risen from the ranks" by the sheer

force of his own ability and industry. An

inventor, some of his patents being used in

the New Williams. The factory, which he

owns, is situated on the west end of the

continent, much of the machinery being

most ingenious, while all the work is done

in the most careful and systematic manner.

Christ Church.

To-morrow (Thursday) being the feast of

St. Michael and All Angels, there will be

full choir service in this church at 8 p.m.

The music for the choir of Presiding will

be the ancient use of Sacram (Salisbury).

A special choir will consist of John Smith,

harvest sower "Ye shall dwell in the

land," and Michael Watson's "Unto Thee,

do we give praise." Dr. Davis will

preach at the organ, and the rector will

preach. All seats free. Collection.

The judges were Jas. Kitcheson, J. Mo-

laron and W. H. Morris. In the first heat,

after a number of unsuccessful attempts to

score, the horses were finally sent off.

Golden Bow at once took the lead, and al-

though closely pressed by Beattie M., was

enabled to lead to the finish. Beattie M.

was a long way in the rear. Time 3:03.

The second heat was well contested one

between Golden Bow and Beattie M., and

at the finish both passed the wire together,

making a dead heat. Beattie M. was 3rd

and Lady Watson 4th.

In the third heat

Beattie M. and Lady Watson being with-

drawn, the race was between Golden Bow

and Beattie M., but the latter, although

leading, was unable to hold her position

and broke down near the home stretch on

the last lap, and this fell back to second

place; Beattie M. 3rd. Time 3:01.

In the final heat there were but two,

Dachler Bow having thrown one of his

front shoes, was allowed to retire. At the

start Golden Bow obtained a slight lead,

race. Time 3:01.

THE FAIR'S FIRST DAY.

A Large Number of Additional Ex-

hibitors Made.

A New Hotel in the Afternoon—Not Much

Interest Taken in It.

The attendance at the grounds yesterday

was fairly good, but by no means what

it should have been. No speech making

or formal opening was indulged in, the

day the exhibitors were busily engaged in

making the final touches to their displays.

The main building is now filled to that ex-

tent which was anticipated by the directors,

but it is owing to no fault of the directors

(Management). A few of those who had

intended to make displays returned at the

last minute. This is not so it should be

attractive as possible, and the merchants of

the city should endeavor to do their part in

maintaining it. Those who have made ex-

hibits have arranged them in a tasteful

manner, which caused favorable comment.

In the bustle of preparation yesterday our
